

The focus of **Trees & Roots** is to start and support businesses in challenging, off-the-track locations in order to create dignified jobs, support families, and push forward innovation and development. We do this by first conducting research on the ground to discover business opportunities that people want and need. We are looking for people to journey with us as we discover how we can establish a purposeful and lasting presence in Mosul, Iraq.

3 Opportunities to Visit

We have 3 trips planned for 2022 to discover the needs and desires in Mosul, Iraq. These visits will be used to gain vision & direction as we launch a business hub in the western part of the city.

1st October
